

AKJ Crypto plc launched Fund of Funds for digital assets

AKJ Crypto plc has launched AKJ Digital Assets FoF (“FoF”), a fund of funds that provides stakeholders with risk-mitigated access to the cryptoeconomy. The FoF is managed by leading cryptocurrency and investment experts and allows professional investors to “get off zero”, following leading global institutions that have begun to allocate resources to crypto.

The FoF invests in top performing hedge funds on the AKJ Crypto platform, allowing access to a diversified portfolio of digital assets and investment strategies. The FoF will appeal to traditional investors, as it is fully regulated and provides a seamless bridge between the fiat and crypto asset universes. Institutional and professional investors can buy into the FoF, through the purchase of AKJ Tokens, by registering their interest at www.akjtoken.com.

Capital Allocation Programs

Free cash on the AKJ Crypto platform will primarily be held in the FoF to provide seed and accelerator capital for fund managers. For AKJ Token holders, the FoF offers access to capital appreciation from managed exposure to digital assets, generated by top managers. The platform’s merit-based and strategy-aligned Capital Allocation Programs are designed to attract top, emerging crypto fund managers onto the platform.

Commenting on the launch, **Neal Mitra, CEO of AKJ Crypto plc** said: *“Crypto has been retrenching for the future and investors now have an attractive entry point to participate in the long-term development of this market. The market appears to have stabilised, and we are uniquely positioned to participate in its growth by providing investors with a regulated, institution-grade offering”*.

The AKJ Crypto platform comes from the same experienced team behind the **multi-award winning AKJ Hedge Fund Platform**. AKJ Crypto plc is part of AK Jensen Group Limited, established in 1995 and owned by shareholders with over US\$18 billion in assets under management. The group serves hedge fund and institutional clients in 35 countries around the world.

Disclosure Notice: Capital is at risk with this investment opportunity.

About AKJ Crypto plc

AKJ Crypto plc, a subsidiary of AK Jensen Group Limited, provides a full-service platform for crypto hedge fund managers, and diversified participation for institutional investors in the cryptoeconomy through the AKJ Token. The turnkey platform includes fund formation, legal and regulatory infrastructure, trading systems, back office support, and seed and accelerator capital. AKJ Digital Assets FoF is authorised and regulated by the Malta Financial Services Authority.
